

KD111D-BED BUG KILLER

Knock Down Bed Bug Killer
Product Code: KD111D
Pyrethrin 0.25%

GENERAL DIRECTIONS: Use only in well ventilated areas.
SHAKE CAN WELL BEFORE USING.

Hold container approximately 120 cm from all objects and aim nozzle away from person. Press button firmly to spray. **DO NOT** use this spray more than once a week. Treatment must only be repeated if the pest problem persists or reoccurs.

TO KILL BED BUGS: Spray mattress lightly, particularly around seams and tufts. Take beds apart, spray bed frame and springs including all joints. Repeat as required. **Control Fleas and Brown Dog Ticks:** Spray infested areas such as pet's bed and resting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames, and localized areas of floor and floor covering where these pests may be present. Remove old bedding after treatment. Insects must be contacted to be killed. **Do NOT** use on pets.

Pyrethrin from the Chrysanthemum flower Pyrethrum

- Pyrethrum is fast acting: it quickly knocks down and kills mosquitoes, flies and other nuisance pests.
- Pyrethrum quickly breaks down in sunlight, leaving no residue
- Pyrethrum irritates or excites insects, increasing probability of exposure to the mist solution.

Pyrethrum

Pyrethrum is a botanical insecticide produced primarily in the flowers of *Tanacetum Cinerariaefolium*, a species of the chrysanthemum plant family.

Pyrethrum has been used effectively to control insects for decades and is non-persistent, decomposing rapidly in the environment. This rapid degradation of pyrethrins makes it an excellent choice for control of agricultural pests.
